Biotechnology Skill Enhancement Program – BiSEP

An initiative of Department of IT and BT, Government of Karnataka

Supported by Dept. of Biotechnology, Ministry of Science & Technology, Government of India

In collaboration with ABLE, LSSSDC & CSIR-IICT

Objectives of the BiSEP Program

- Educate & empower human resources with skills to bridge the gap between industry & academia.
- Train B.E.(Biotech) graduates & M.Sc. (any Life Sciences branch) postgraduates to be industry ready for employment.
- Create Biotechnology R&D environment and collaborations among BiSEP institutions.
- To develop breakthrough expertise in skills & excel in the field of Cellular & Molecular Diagnostics provided by SDM along with placements for training at tied up industrial partners.
- Ensure life long learning environment for career development.

SDM College of Medical Sciences & Hospital is offering Post graduate diploma Course in Cellular and Molecular Diagnostics under the aegis of Biotechnology Skill Enhancement Program (BiSEP). This program is being sponsored by the Vision Group on Biotechnology, ABLE, Department of IT, BT and S&T, Government of Karnataka and implemented by Karnataka Biotechnology and Information Technology Services (KBITS).

Details of the program are

Discipline: Cellular and Molecular Diagnostics

Eligibility: A minimum of 50% marks in Masters degree in Biotechnology/BioSciences/Agriculture/Veterinary Science/BPharm/MPharm (or) BE/BTech in Biomedical/ Biotechnology/

Fees: Rs. 50,000/ p.a. (excluding hostel and mess fees)

About Us

SDM Medical College is one of the premier Medical institutions in North Karnataka region headed by Dharmasthala group. In last few years SDM Dharwad has reached its pinnacle in academic and clinical service to the North Karnataka population. To achieve newer heights in Biomedical Research we have started Central Research Laboratory (CRL). In last few years, because of high scientific impact work and its publication history it has gained its name in the scientific world. In the department of Biochemistry/CRL we have highly qualified and internationally reputed faculty and in last few years they are engaged in molecular mechanism work in cancer biology, Molecular biology, stem cell biology, Immunology and nanoparticle formulation and characterization work. KBITS has recognised our Institute to conduct Cellular and Molecular Diagnostics domain of BiSEP
